SHIRE OF COUNTRY NOTES TO AND FORMING PART OF THE FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2024

1. BASIS OF PREPARATION

The financial report of the Shire of Country which is a Class 4 local government comprises general purpose financial statements which have been prepared in accordance with the Local Government Act 1995 and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the Local Government Act 1995 read with the Local Government (Financial Management) Regulations 1996 prescribe that the financial report be prepared in accordance with the Local Government Act 1995 and, to the extent that they are not inconsistent with the Local Government Act 1995, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board except for disclosure requirements of:

- AASB 7 Financial Instruments Disclosures
- AASB 16 Leases paragraph 58
- AASB 101 Presentation of Financial Statements paragraph 61
- AASB 107 Statement of Cash Flows paragraphs 43 and 45
- AASB 116 Property, Plant and Equipment paragraph 79
- AASB 137 Provisions, Contingent Liabilities and Contingent
- Assets paragraph 85
- AASB 140 Investment Property paragraph 75(f)
- AASB 1052 Disaggregated Disclosures paragraph 11
- AASB 1054 Australian Additional Disclosures paragraph 16

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

The Local Government (Financial Management) Regulations 1996 provide that - land and buildings classified as property, plant and equipment;or

vested improvements that the level reversment centre

and measured at reportable value, are only required to be revalued every five years. Revaluing these non-financial assets every five years is a departure from AASB 116 Property, Plant and Equipment, which would have required the Shire to assess at each reporting date whether the carrying amount of the above mentioned non-financial assets materially differs from their fair value and, if so, revalue the class of non-financial assets. Use with 5-yearly revaluations. Do not use if revaluations comply with AASB 116

AASB 108.13 Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates and judgements The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and excenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

As with all estimates, the use of different assumptions could lead to material changes in the amounts reported in the financial report.

The following are estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and further information on their nature and impact can be found in the relevant note:

- Fair value measurement of assets carried at reportable
- value including:
- Property, plant and equipment note 8
- Infrastructure note 9
- Expected credit losses on financial assets note 5
- Assets held for sale note 7
- Impairment losses of non-financial assets note 8 and 9
- Estimated useful life of intangible assets note 12
- Investment property note 13
- Measurement of employee benefits note 17
- Measurement of provisions note 18

Fair value heirarchy information can be found in note 28

The local government reporting entity

All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 33 of the financial report.

Initial application of accounting standards

During the current year, the following new or revised Australian Accounting Standards and Interpretations were applied for the first time.

 AASB 2021-2 Amendments to Australian Accounting Standards -Disclosure of Accounting Policies or Definition of Accounting Estimates

This standard resulted in terminology changes relating to material accounting policies (formerly referred to as significant accounting policies).

New accounting standards for application in future years The following new accounting standards will have application to local government in future years:

- AASB 2014-10 Amendments to Australian Accounting Standards
 Sale or Contribution of Assets between an Investor and its
 Associate or Joint Venture
- AASB 2020-1 Amendments to Australian Accounting Standards -Classification of Liabilities as Current or Non-current

 AASB 2021-7c Amendments to Australian Accounting Standards

 Effective Date of Amendments to AASB 10 and AASB 128 and Editorial Corrections [deferred AASB 10 and AASB 128 amendments in AASB 2014-10 apply]

- AASB 2022-5 Amendments to Australian Accounting Standards
 Lease Liability in a Sale and Leaseback
- AASB 2022-6 Amendments to Australian Accounting Standards
 Non-current Liabilities with Covenants

These amendments are not expected to have any material impact on the financial report on initial application.

 AASB 2022-10 Amendments to Australian Accounting Standards

 Fair Value Measurement of Non-Financial Assets of Not-for-Profit Public Sector Entities

These amendment may result in changes to the fair value of non-financial assets. The impact is yet to be quantified.

• AASB 2023-1 Amendments to Australian Accounting Standards

- Supplier Finance Arrangements These amendments may result in additional disclosures in the case of applicable finance arrangements. AASB 108 28

AASB 108.30

2. REVENUE AND EXPENSES

(a) Revenue

Contracts with customers

Recognition of revenue is dependant on the source of revenue and the associated terms and conditions associated with each source of revenue and recognised as follows:

Revenue Category	Nature of goods and services	When obligations typically satisfied	Payment terms	Returns/Refunds/ Warranties	Timing of revenue recognition
Grants, subsidies and contributions	Community events, minor facilities, research, design, planning evaluation and services	Over time	Fixed terms transfer of funds based on agreed milestones and reporting	Contract obligation if project not complete	Output method based on project milestones and/or completion date matched to performance obligations
Fees and charges - licences, registrations, approvals	Building, planning, development and animal management.	Single point in time	Full payment prior to issue	None	On payment of the licence, registration or approval
Fees and charges - waste management entry fees	Waste treatment, recycling and disposal service at disposal sites	Single point in time	Payment in advance at gate or on normal trading terms if credit provided	None	On entry to facility
Fees and charges - airport landing charges	Permission to use facilities and runway	Single point in time	Monthly in arrears	None	On landing/departure event
Fees and charges - sale of stock	Aviation fuel, kiosk and visitor centre stock	Single point in time	In full in advance, on 15 day credit	Refund for faulty goods	At point of sale
Other revenue - private works	Contracted private works	Single point in time	Monthly in arrears	None	At point of service

AASB 15.122, 126 (a) Consideration from contracts with customers is included in the transaction price.

Revenue Recognition

AASB 15.113 (a) Revenue recognised during the year under each basis of recognition by nature of goods or services is provided in the table below:

AASB 15.118(c)

The impairment loss on contract assets has been recognised in relation to expenditure incurred for a future event for which grant funding is yet to be received. This amount has been recognised as revenue

as the Shire has satisfied the relevant performance obligations in the contract.

The Shire has calculated the loss allowance to take into account the credit risk associated with the event being cancelled due to ongoing uncertainties.

AASB 101.117 MATERIAL ACCOUNTING POLICIES Rates and statutory receivables AASB 9.Aus2.1.1 Rates and statutory receivables are non-contractual receivables arising from statutory requirements and include emergente due from rates parts for uppeid rates and explose

amounts due from ratepayers for unpaid rates and service charges and other statutory charges or fines.

Rates and statutory receivables are recognised when the taxable event has occurred and can be measured reliably.

Trade receivables

Trade receivables are amounts receivable from contractual arrangements with customers for goods sold, services performed or grants or contributions with sufficiently specific performance obligations or for the construction of recognisable non financial assets as part of the ordinary course of business.

Other Receivables

Other receivables are amounts receivable from contractual arrangements with third parties other than contracts with customers including grants for the construction of recognisable non financial assets.

AASB 9.5.1.3 Measurement Trade and other

AASB 101.10(e)(ea)

AASB 9.C6

AASB 9.C7

Trade and other receivables are recognised initially at the amount of the transaction price, unless they contain a significant financing component, and are to be recognised at fair value. Classification and subsequent measurement Receivables which are generally due for settlement within 30 days except rates receivables which are expected to be collected within 12 months are classified as current assets. All other receivables such as, deferred pensioner rates receivable after the end of the reporting period are classified as non-current assets.

Trade and other receivables are held with the objective to collect the contractual cashflows and therefore the Shire measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

		653,000	0 0
	Land classified as hold for sale		

Land classified as held for sale

AASB 5.41(a),(b),(c) During the year Council elected to dispose of vacant land on Main Street. The land is currently being marketed for sale. The property is to be disposed of by public auction in August 2024, with a number of parties having already shown an interest in the property.

Contract assets AASB 15.117 The Shire's contract assets represent work completed, which have not been invoiced at year end. This is due to the Shire AASB 15.118(b)

not having met all the performance obligations in the contract which give an unconditional right to receive consideration. The Shire applies the simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all contract assets. To measure the expected credit losses, contract assets have been grouped based on shared credit risk characteristics and the days past due. Contract assets have substantially the same risk characteristics as the trade receivables for the same types of contracts. The Shire has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

Impairment of assets associated with contracts with customers are detailed in Note 2(b). AASB 15.118(b)

AASB 101.117	MATERIAL ACCOUNTING POLICIES Other current assets Other non-financial assets include prepayments which represent payments in advance of receipt of goods or services or that part of expenditure made in one accounting period covering a term extending beyond	Non-current assets held for sale (Continued) Non-current assets classified as held for sale are valued at the lower of the carrying amount and fair value less costs to sell.	AASB 5.15
AASB 5.6 to 12A	that period. Non-current assets held for sale Assets are classified as held for sale where the carrying amount will be recovered through a sale rather than continuing use and the asset is available for immediate sale with a sale being highly probable.	The fair value of land and buildings was determined using the sales comparison approach using comparable properties in the area. This is a level 2 measurement as per the fair value heirachy set out in Note 28(i).	AASB 13.91(a) AASB 13.93(b).(d) AASB 5.41(c)

AASB 116.74A(a) An amount of \$90,000 (2023 – nil) was received from an insurance company as compensation for the damage to the grader.

AASB 101.10(e)(ea) AASB 101.38

8. PROPERTY, PLANT AND EQUIPMENT (Continued)

AASB 13.91 (b) Carryir

(b) Carrying Amount Measurements

AASB 116.77	Asset Class (i) Fair Value - as determined at tl	Fair Value Hierarchy he last valuation	Valuation Technique date	Basis of Valuation	Date of Last Valuation	Inputs Used
	Land and buildings					
	Land	2	Market approach using recent observable market data for similar properties	Independent registered valuer	June 2020	Price per square metre
	Buildings - non-specialised	2	Market approach using recent observable market data for similar properties	Independent registered valuer	June 2023	Price per square metre
	Buildings - specialised	3	Cost approach using current replacement cost	Management valuation	June 2023	Construction costs and current condition, residual values and remaining useful life assessments inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs. The valuation techniques applied to property subject to lease was the same as that applied to property not subject to lease.

9. INFRASTRUCTURE (Continued)

AASB 13.91 (b) Carrying Amount Measurements

AASB 116.77	Asset Class	Fair Value Hierarchy	Valuation Technique	Basis of Valuation	Date of Last Valuation	Inputs Used
AASB 116.Aus77.1	(i) Fair Value - as determined at the last Infrastructure - roads	a valuation date	Cost approach using current replacement cost	Management valuation	June 2022	Construction costs and current condition, residual values and remaining useful life assessments inputs
	Infrastructure - footpaths	3	Cost approach using current replacement cost	Management valuation	June 2022	Construction costs and current condition, residual values and remaining useful life assessments inputs
	Infrastructure - drainage	3	Cost approach using current replacement cost	Management valuation	June 2022	Construction costs and current condition, residual values and remaining useful life assessments inputs
	Infrastructure - parks and ovals	3	Cost approach using current replacement cost	Management valuation	June 2022	Construction costs and current condition, residual values and remaining useful life assessments inputs
	Infrastructure - other	3	Cost approach using current replacement cost	Management valuation	June 2022	Construction costs and current condition, residual values and remaining useful life assessments inputs
	Infrastructure - landfill assets	3	Cost approach using current replacement cost	Management valuation	June 2021	Construction costs and current condition, residual values and remaining useful life assessments inputs

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

10. FIXED ASSETS

(a) Depreciation

AASB 101.117 AASB 116.73(c)

AASB 116.76

Depreciation rates Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

	Asset Class	Useful life
AASB 101.77	Buildings	30 to 50 years
	Furniture and equipment	4 to 10 years
	Plant and equipment	5 to 15 years
	Sealed roads and streets	
	formation	not depreciated
	pavement	50 years
	seal	
	- bituminous seals	20 years
	- asphalt surfaces	25 years
	Gravel roads	,
	formation	not depreciated
	pavement	50 years
	Footpaths - slab	20 years
	Sewerage piping	100 years
	Water supply piping and drainage systems	75 years
	Landfill assets	30 years
	Right-of-use (buildings)	Based on the remaining lease term
	Right-of-use (plant and equipment)	Based on the remaining lease term

AASB 108.39 Revision of useful lives of plant and equipment

During the year the estimated total useful lives of certain items of plant and equipment used in the maintenance of road infrastructure were revised. The net effect of the change is a net increase in depreciation of \$97,475.

0. FIXED ASSETS (Continued)		
MATERIAL ACCOUNTING POLICIES Initial recognition An item of property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost. Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at	Depreciation The depreciable amount of all property, plant and equipment and infrastructure, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.	AASB 116.73(b) AASB 116.50 AASB 116.51
the date of acquisition. Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with <i>Local</i> <i>Government (Financial Management) Regulation 17A(5)</i> . These assets are expensed immediately. Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset	Depreciation on revaluation When an item of property, plant and equipment and infrastructure is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways: (i) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. (ii) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.	AASE 116.35
exceeding the threshold, the individual assets are recognised as one asset and capitalised. Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and disclosed as being at reportable value.	Impairment In accordance with Local Government (Financial Management) Regualtions 17A(4C), the Shire is not required to comply with <i>AASB136 Impairment of Assets</i> to determine the recoverable amount of its non-financial assets that are land or buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls in circumstances where there has been an impairment indication of a general decrease in asset values.	AASB 136.59 FM Reg 17A(4C)
Measurement after recognition Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under <i>Local Government (Financial</i>	In other circumstances where it has been assessed that one or more these non-financial assets are impaired, the asset's carrying amount is written down immediately to its recoverable amount if the asset's	
Management) Regulation 17A(2). Assets held under the cost model are carried at cost less accumulated depreciation and any impairment losses.	carrying amount is greater than its estimated recoverable amount. Gains or losses on disposal Gains and losses on disposals are determined by comparing	
Reportable Value In accordance with <i>Local Government (Financial Management)</i> <i>Regulation 17A(2)</i> , the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the local government controls.	proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.	
Reportable value for the purposes of <i>Local Government (Financial Management) Regulation 17A(4)</i> is the fair value of the asset at its last valuation date minus (to the extent applicable) the accumulated depreciation and any accumulated impairment losses in respect of the non-financial asset subsequent to its last valuation date.		
Revaluation Land and buildings classified as property, plant and equipment, infrastructure or vested improvements that the local government controls and measured at reportable value, are only required to be revalued every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on land vested in the Shire.		
Whilst the regulatory framework only requires a revaluation to occur at every five years, it also provides for the Shire to revalue earlier if it chooses to do so.		
For land, buildings and infrastructure, increases in the carrying amount arising on revaluation of asset classes are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss. Subsequent increases are then recognised in profit or loss to the extent they reverse a net revaluation decrease previously recognised in profit or loss for the same class of asset		
	 MATERIAL ACCOUNTING POLICIES Initial recognition An temody property, plant and equipment or infrastructure that qualifies for recognition as an asset is measured at its cost. Upon initial recognition, cost is determined as the amount paid (or other consideration given) to acquire the assets, plus costs incidental to the acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct assists includes the cost of all materials used in construction direct assists includes the cost of all materials used in construction of the cost of all materials used in construction of the cost of all materials used in construction of the date of acquisition. Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with <i>Local Government (Financial Management) Regulation 17A(5)</i>. These assets are expensed immediately. Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised. Individual assets that are land, buildings and infrastructure acquired between scheduled revaluation dates of the asset class in accordance with the Shire's revaluation policy, are recognised at cost and discosed as being at reportable value. Masurement after recognition Plant and equipment including furniture and equipment and right-of-use assets (other than vested improvements) are measured using the cost model as required under <i>Local Government (Financial Management) Regulation 17A(2)</i>, the carrying amount of non-financial assets that are land and buildings classified as property, plant and equipment, investment properties, infrastructure or vested improvements that the loc	NUMERA Operation Numera Approximation is an invalue of an inprovide of the instance track of the inprovide of the instance of t

AASB 16.47 (b)	(b) Lease Liabilities				. ,
	Current Non-current 30)(d)	205,134 302,743 507,877	-	127,670 241,166 368,836

The Shire has two leases relating to plant and equipment. The lease term for both leases is 4 years. One of the leases has variable lease payments. The measurement of lease liabilities does not include variable lease payments and any future cash outflows associated with leases not yet commenced to which the Shire is committed. The building lease has a term of 5 years with an extension option of 5 years and a termination option of 6 months. Refer to Note 32(d) for details of lease liabilities.

Secured liabilities and assets pledged as security Lease liabilities are effectively secured, as the rights to the leased assets recognised in the financial statements AASB 7.7 AASB 7.14(b) revert to the lessor in the event of default.

AASB 101.17 (b)	MATERIAL ACCOUNTING POLICIES

	The Shire leases houses to staff and aged persons with rentals payable m leases as they do not transfer substantially all of the risks and rewards inc		

leases as they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets. The staff houses are not considered investment property as they are leased for use in the supply of services to the community. The aged persons housing are considered a joint operation and are not considered investment property as the primary purpose is provision of community housing.

AASB 16.92 Lease payments for some contracts include CPI increases, but there are no other variable lease payments that depend on an index or rate. Although the Shire is exposed to changes in the residual value at the end of the current leases, the Shire group typically enters into new operating leases and therefore will not immediately realise any reduction in residual value at the end of these leases. Expectations about the future residual values are reflected in the fair value of the properties.

Refer to note 12 for details of leased investment property.

MATERIAL ACCOUNTING POLICIES The Shire as Lessor AASB 16.61 Upon entering into each contract as a lessor, the Shire assesses Initial direct costs incurred in entering into an operating AASB 16.83 if the lease is a finance or operating lease. lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as The contract is classified as a finance lease when the terms an expense on a straight-line basis over the lease term. AASB 16.62 of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition When a contract is determined to include lease and are classified as operating leases. Rental income received from AASB 16.81 non-lease components, the Shire applies AASB 15 Revenue from Contracts with Customers to allocate operating leases is recognised on a straight-line basis over the term of the specific lease. the consideration under the contract to each component.

AASB 138.57, 66, 74, 97

AASB 138 118 (d)

Computer software (continued) Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

Amortisation

AASB 138.118(a), (b)

All intangible assets with a finite useful life, are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use.

The residual value of intangible assets is considered to be zero and the useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within depreciation in the Statement of Comprehensive Income.

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

24. RELATED PARTY TRANSACTIONS

Transactions with related parties

Transactions between related parties and the Shire are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts or guarantees exist in relation to related parties at year end.

In addition to KMP compensation above the following transactions occurred with related parties:	2024 Actual \$	2023 Actual \$
Sale of goods and services Purchase of goods and services Short term employee benefits - other related parties Payment of Council member costs (Refer to Note 24(a))	13,032 265,941 85,612 229,533	11,068 369,871 84,306 225,953
Amounts outstanding from related parties: Trade and other receivables	13,540	5,684
Amounts payable to related parties: Trade and other payables	25,601	32,564

Related Parties

The Shire's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the Shire, directly or indirectly, including any council member, are considered key management personnel and are detailed in Notes 24(a) and 24(b).

ii. Other Related Parties

During the previous year, a company controlled by a related party of a council member, was awarded a contract under the selective tender process on terms and conditions equivalent for those that prevail in arm's length transactions under the Shire's procurement process.

The contract involved roadworks in the Shire, and amounted to \$265,941 in the current year (\$369,871 in the prior year).

Short-term employee benefits related to an associate person of the CEO who was employed by the Shire under normal employment terms and conditions.

Outside of normal citizen type transactions with the Shire, there were no other related party transactions involving key management personnel and/or their close family members and/or their controlled (or jointly controlled) entities.

iii. Entities subject to significant influence by the Shire

There were no such entities requiring disclosure during the current or previous year.

27. EVENTS OCCURRING AFTER THE END OF THE REPORTING PERIOD

Following the end of the financial year the Shire's administration building was significantly damaged by fire. The exact extent of the damage is yet to be quantified. The Shire maintains fire insurance cover and does not expect to incur significant financial loss as a result. Operations are expected to be disrupted for a period of six to nine months as repairs are undertaken.

AASB 101.10(e)

28. OTHER MATERIAL ACCOUNTING POLICIES AASB 101.17 (b) Interpretation 1031 a) Goods and services tax (GST) i) Fair value hierarchy Revenues, expenses and assets are recognised net of the amount of GST, AASB 13 Fair Value Measurement requires the disclosure of fair value AASB 101.38 except where the amount of GST incurred is not recoverable from the information by level of the fair value hierarchy, which categorises fair value Australian Taxation Office (ATO). measurement into one of three possible levels based on the lowest level input that is significant to the measurement can be categorised into as Receivables and payables are stated inclusive of GST receivable or payable. follows The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Level 1 Measurements based on guoted prices (unadjusted) in active markets for Cash flows are presented on a gross basis. The GST components of cash identical assets or liabilities that the Shire can access at the measurement date. flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows. Level 2 Measurements based on inputs other than quoted prices included in Level 1 b) Current and non-current classification that are observable for the asset or liability, either directly or indirectly. The asset or liability is classified as current if it is expected to be settled AASB 101.66 AASB 101.69 within the next 12 months, being the Shire's operational cycle. In the case of Level 3 liabilities where the Shire does not have the unconditional right to defer Measurements based on unobservable inputs for the asset or liability. settlement beyond 12 months, such as vested long service leave, the liability The fair values of assets and liabilities that are not traded in an active market is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current are determined using one or more valuation techniques. These valuation based on the Shire's intentions to release for sale. techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the AASB 101.51(e) asset or liability is included in Level 2. If one or more significant inputs are not c) Rounding off figures FM Reg 15 All figures shown in this annual financial report, other than a rate in the dollar. based on observable market data, the asset or liability is included in Level 3. AASB 101.51(d) are rounded to the nearest dollar. Amounts are presented in Australian Dollars. Valuation techniques The Shire selects a valuation technique that is appropriate in the circumstances AASB 101.38 d) Comparative figures Where required, comparative figures have been adjusted to conform with and for which sufficient data is available to measure fair value. The availability changes in presentation for the current financial year. of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by AASB 101.10(f) When the Shire applies an accounting policy retrospectively, makes a the Shire are consistent with one or more of the following valuation approaches: retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional Market approach (third) Statement of Financial Position as at the beginning of the preceding Valuation techniques that use prices and other relevant information generated period in addition to the minimum comparative financial report is by market transactions for identical or similar assets or liabilities. presented Income approach FM Reg 36(2) e) Budget comparative figures Valuation techniques that convert estimated future cash flows or income and Unless otherwise stated, the budget comparative figures shown in this annual expenses into a single discounted present value. financial report relate to the original budget estimate for the relevant item of disclosure Cost approach Valuation techniques that reflect the current replacement cost of the service f) Superannuation capacity of an asset. The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution Each valuation technique requires inputs that reflect the assumptions that plans buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire AASB 116.73(a) q) Fair value of assets and liabilities gives priority to those techniques that maximise the use of observable inputs Fair value is the price that the Shire would receive to sell the asset or would and minimise the use of unobservable inputs. Inputs that are developed using have to pay to transfer a liability, in an orderly (i.e. unforced) transaction market data (such as publicly available information on actual transactions) between independent, knowledgeable and willing market participants at the and reflect the assumptions that buyers and sellers would generally use when measurement date pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best AASB 13.2.11.61.67 As fair value is a market-based measure, the closest equivalent observable information available about such assumptions are considered unobservable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the i) Impairment of assets In accordance with Australian Accounting Standards, the Shire's assets are specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These assessed at each reporting date to determine whether there is any indication valuation techniques maximise, to the extent possible, the use of observable they may be impaired. market data. Where such an indication exists, an impairment test is carried out on the AASB 13.16-21 To the extent possible, market information is extracted from either the asset by comparing the recoverable amount of the asset, being the higher principal market for the asset or liability (i.e. the market with the greatest of the asset's fair value less costs to sell and value in use, to the asset's volume and level of activity for the asset or liability) or, in the absence of carrying amount except for non-financial assets that are: such a market, the most advantageous market available to the Shire at the land and buildings classified as property, plant and equipment; end of the reporting period (i.e. the market that maximises the receipts from infrastructure: or the sale of the asset after taking into account transaction costs and - vested improvements that the local government controls, in circumstances where there has been an impairment indication of a general decrease in transport costs). asset values AASB 13.27-33 For non-financial assets, the fair value measurement also takes into account These non-financial assets are assessed in accordance with the regulatory a market participant's ability to use the asset in its highest and best use or framework detailed in Note 10. to sell it to another market participant that would use the asset in its highest Any excess of the asset's carrying amount over its recoverable amount is and best use. recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116 h) Interest revenue Property, Plant and Equipment) whereby any impairment loss of a revalued Interest revenue is calculated by applying the effective interest rate to the asset is treated as a revaluation decrease in accordance with that other gross carrying amount of a financial asset measured at amortised cost

except for financial assets that subsequently become credit-impaired. For

credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss

allowance)

Standard.
