<input type="checkbox"/>	Other _____				

1.3 Premises name: Halls Head Bowling & Recreation Club (Inc)

1.4 Address of proposed premises:  
3 Sticks Boulevard, Erskine WA 6210

## Introduction

The public interest test is based on the principle that licensed premises must operate within the interests of the local community. The Butterworth's Australian Legal Dictionary defines the term "public interest" as:

*"an interest in common to the public at large or a significant portion of the public and which may, or may not involve the personal or proprietary rights of individual people"*

The public interest provisions enable the licensing authority to consider a broad range of issues specific to each licence or permit application, and flexibility exists to assess each individual application on its merits.

Each community is different and has individual characteristics. Similarly, each licensee's business or proposed manner of trade is unique to the particular premises. A Public Interest Assessment (PIA) outlines how the premises/proposed premises will impact the community and provide an outline of how the applicant will manage any impact.

Section 31 of the *Liquor Control Act 1988* ('the Act') provides the licensing authority with the discretion to grant licences.

Under section 33(1) *'the licensing authority has an absolute discretion to grant or refuse an application on any grounds, or for any reason, that the licensing authority considers in the public interest.'*

In considering the public interest, the licensing authority will take into account the objects of the Act as provided in section 5 and the matters set out in section 38(4).

In this regard, applicants will be required to lodge a PIA with the application.

### Legislative Provisions

The primary objects of the Act as set out in section 5 are:

- a) to regulate the sale, supply and consumption of liquor;
- b) to minimise harm or ill-health caused to people, or any group of people, due to the use of liquor; and
- c) to cater for the requirements of consumers for liquor and related services, with regard to the proper development of the liquor industry, the tourism industry and other hospitality industries in the State.

The secondary objects of the Act are:

- a) to facilitate the use and development of licensed facilities, including their use and development for the performance of live original music, reflecting the diversity of the requirements of consumers in the State;
- b) to provide adequate controls over, and over the persons directly or indirectly involved in, the sale, disposal and consumption of liquor; and
- c) to provide a flexible system, with as little formality or technicality as may be practicable, for the administration of this Act.
- d) to encourage responsible attitudes and practices towards the promotion, sale, supply, service and consumption of liquor that are consistent with the interests of the community.

Section 38(4) of the Act provides that the matters the licensing authority may have regard to in determining whether the granting of an application is in the public interest include:

- a) the harm or ill-health that might be caused to people, or any group of people, due to the use of liquor;
- b) whether the amenity, quiet or good order of the locality in which the licensed premises or proposed licensed premises are, or are to be, situated might in some manner be lessened;
- c) whether offence, annoyance, disturbance or inconvenience might be caused to people who reside or work in the vicinity of the licensed premises or proposed licensed premises;
- ca) any effect the granting of the application might have in relation to tourism, or community or cultural matters; and
- d) any other prescribed matter. (Please note: there are no prescribed requirements at this time).

The licensing authority has discretion to impose conditions on the licence or permit that has regard to the public interest, the objects of the Act and the information provided in the applicant's PIA submission. Conditions may also be imposed based on the content of the PIA submission.

In considering the public interest, applicants should demonstrate the positive aspects of their application including the social, economic and health impacts. It is not sufficient for applicants to merely demonstrate that the grant of the application will not have any negative impact.

#### Locality

As part of a PIA submission, applicants must provide details regarding the community in the vicinity of the licensed premises (or proposed licensed premises) and any amenity issues in the locality.

The term 'locality' in this instance refers to the area surrounding the proposed licensed premises. This locality will be the area most likely to be affected by the granting of an application in relation to amenity issues.

However, in terms of potential harm or ill-health impacts on the community an applicant may need to consider a wider geographic area depending on the intended nature of the business.

In this regard, in terms of addressing objects 5(1)(b) and 5(1)(c) of the Act, an applicant may need to consider an area which is much broader than the 'locality' used for consideration of amenity issues. For example, an application for a destination liquor store, which may draw its clientele from a large geographic area, would need to address 5(1)(b) and 5(1)(c) of the Act in a much broader context. The onus is on the applicant to satisfy the licensing authority that the grant of the application is in the public interest and provide relevant evidence and submissions to discharge this onus. An applicant should address all relevant considerations under the Act, bearing in mind all the circumstances and unique features of its particular application.

#### Licensing Authority's Expectations for a PIA

Completing the PIA should be part of an applicant's business planning. A PIA assists the licensing authority in assessing the impact of the application, if granted, on the community, including existing services and amenity. It is also a valuable document for informing the community about the proposed manner of trade. It is important to note that there is no requirement in the Act for PIAs to be prepared by legal counsel or industry consultants. Applicants can complete their own PIA by taking a common-sense approach after liaising with the relevant key stakeholders and interest groups in the community.

Evidence to support an application being in the public interest should include, but is not limited to petitions; survey results; and letters of support and statements of consumers having a requirement for the type of liquor to be sold and supplied under the licence sought.

It is important to note, however, that because each community is different, the level of detail required in a PIA will be different for individual applications. The required level of detail is subject to the complexity of the application and the impact the premises/proposed premises will have on the surrounding community.

***The following questions have been developed to guide applicants through the PIA process and highlight the areas which should be considered.***

***The information provided should not be limited to the space provided on the form. If you need to attach additional information, please refer to the relevant attachment in the space provided.***

**PART 2 – Manner of trade**

*Description of the proposed business, manner of proposed trade and target client base. This information should be consistent with your business plan/model.*

**2.1 What facilities and services will be provided by the proposed premises?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

The proposed premises will offer a range of facilities and services designed to meet the needs of our members and enhance their experience:

- **Clubhouse:** A spacious and comfortable area for social gatherings, meetings, and events, equipped with seating, tables, and entertainment options.
- **Bowling Greens:** Four well-maintained greens for regular and competitive bowling activities, including provisions for both casual play and organized leagues.
- **Catering Facilities:** A fully equipped kitchen and dining area managed by our caterer, offering a variety of meals and refreshments.
- **Bar Area:** A bar serving a selection of beverages, including soft drinks, beers, wines, and spirits.
- **Event Spaces:** Flexible spaces available for private functions, community events, and special occasions, with support for setup and logistics.
- **Administrative Services:** An office with staff available to assist with member inquiries, bookings, and club management.
- **Volunteers and Support Services:** Over 100 regular volunteers managing various club operations, including greens maintenance, bingo, and event coordination.
- **Accessibility Features:** Facilities designed to accommodate members with disabilities, ensuring inclusive participation in all club activities.

These facilities and services will support a vibrant and engaging environment for our members and guests.

**2.2 What is the proposed manner of trade?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

The proposed manner of trade for the premises will include:

- **Membership-Based Access:** Services and facilities will primarily be available to club members, with opportunities for non-members to participate in events and activities through guest invitations and occasional open days.
- **Regular Operating Hours:** The clubhouse, bowling greens, and bar will operate during established hours to accommodate daily activities, including social events, casual play, and competitive matches.
- **Event Hosting:** The venue will offer facilities for private functions and community events, with booking options for both members and external groups. Events will be managed through advance reservations and coordination with our staff.
- **Catering and Bar Services:** The catering facilities will provide meals and refreshments during operating hours, including special event catering. The bar will offer a range of beverages to members and guests during club activities and events.

- **Fee Structure:** Access to certain facilities and services may involve membership fees, event booking fees, and charges for catering and bar services. Detailed pricing will be communicated to members and guests as needed.
- **Community Engagement:** We will actively engage with the local community through events, workshops, and partnerships, promoting the venue as a hub for social and recreational activities.

This approach will ensure that the premises are used effectively to serve both members and the wider community, enhancing the overall experience and fostering a vibrant club environment.

**2.4 Will the premises be distinguished by any particular theme or decor?**

*Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)*

Yes, the premises will feature a distinctive theme and decor to enhance the overall ambiance and create a welcoming environment. Key elements include:

- **Classic and Elegant Design:** The decor will incorporate classic and elegant design elements that reflect the heritage and tradition of the club, creating a timeless and sophisticated atmosphere.
- **Bowling-Themed Accents:** Subtle bowling-themed decor, such as framed vintage bowling posters, bowling memorabilia, and themed artwork, will celebrate the sport and its history.
- **Modern Amenities:** While maintaining a classic look, the premises will integrate modern amenities and furnishings for comfort and functionality, including contemporary lighting, stylish seating, and updated fixtures.
- **Community and Local Art:** The inclusion of artwork and decor from local artists will highlight community engagement and create a connection with the local area.
- **Seasonal Decorations:** The club will feature seasonal decorations to enhance the atmosphere for various holidays and special events, providing a dynamic and festive environment throughout the year.
- **Inclusive Design:** The design will prioritize accessibility and inclusivity, ensuring that all members and guests can enjoy the facilities comfortably.

This thoughtful combination of design elements will create a unique and inviting space that reflects the club's values and enhances the experience for all visitors.

**Part 3 – Public Interest – section 38(2)**

**3.1 Why is the grant of a licence in the public interest and how will it benefit the community?**

*Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)*

**1. Enhancing Community Engagement:**

- **Benefit:** The grant of a licence will enable the club to operate more effectively and host a variety of community-focused events and activities.

- **Public Interest:** It will foster a greater sense of community by providing a dedicated space for social interaction, recreational activities, and local gatherings.

## 2. Promoting Social Inclusion:

- **Benefit:** The club's facilities and services are designed to be accessible to a diverse range of people, including those with disabilities.
- **Public Interest:** This inclusivity ensures that all members of the community can participate in and benefit from club activities, promoting social equity and integration.

## 3. Supporting Local Economy:

- **Benefit:** By operating under a grant of licence, the club can create jobs and stimulate local economic activity through its catering services, bar operations, and event hosting.
- **Public Interest:** It supports local businesses and service providers, contributing to the economic vitality of the area.

## 4. Providing Recreational Opportunities:

- **Benefit:** The club will offer a range of recreational activities, including bowling, social events, and community programs.
- **Public Interest:** Access to these activities promotes healthy lifestyles and provides valuable leisure opportunities for residents of all ages.

## 5. Strengthening Community Ties:

- **Benefit:** The club's role as a community hub will strengthen local connections and build relationships among residents.
- **Public Interest:** It helps in creating a cohesive and engaged community by offering a venue for socializing, networking, and collaborative activities.

## 6. Facilitating Volunteerism:

- **Benefit:** The club relies on a significant number of volunteers to support its operations and events.
- **Public Interest:** Volunteering opportunities contribute to personal development and community spirit, benefiting both the volunteers and the wider community.

In summary, the grant of a licence aligns with the public interest by enhancing community engagement, promoting social inclusion, supporting the local economy, providing recreational opportunities, strengthening community ties, and facilitating volunteerism. These benefits collectively contribute to the well-being and cohesion of the community.

**PART 4 - Harm or Ill Health - section 38(4)(a)**

*Risk assessment with respect to the harm or ill health that might be caused to people, or groups of people within the locality, due to the use of liquor.*

**4.1 List any 'at risk' groups or sub-communities within the locality, travelling through the locality or resorting to the locality?<sup>1</sup>**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

This will not have impact on and groups or sub-communities as this ETP will be for members and strictly club events only.

**4.2 What are the social health indicators for the locality?<sup>2</sup>**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

This will not have impact on and groups or sub-communities as this ETP will be for members and strictly club events only.

**4.3 What are the proposed strategies the applicant will implement to minimise harm or ill health?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

**1. Responsible Alcohol Service:**

- **Strategy:** Ensure adherence to responsible alcohol service practices to prevent overconsumption and maintain patron safety.
- **Implementation:** Enforce existing protocols for monitoring alcohol consumption and managing intoxicated patrons.

**2. Ongoing Staff Supervision:**

- **Strategy:** Maintain high standards of service through effective staff supervision and regular performance reviews.
- **Implementation:** Conduct regular evaluations to ensure staff are applying their training effectively and addressing any issues promptly.

**3. Clear Communication of Guidelines:**

- **Strategy:** Communicate the club's policies on alcohol consumption and behaviour expectations clearly to patrons.

<sup>1</sup> In regard to 'at risk' groups and sub-communities, these have been identified under the *Drug and Alcohol Interagency Framework for Western Australia 2011-2015* and may include: children and young people; aboriginal people and communities; people from regional, rural and remote communities; families; migrant groups from non-English speaking countries; people in low socio-economic areas; mining communities or communities with a high number of itinerant workers; and/or communities that experience high tourist numbers.

<sup>2</sup> In regard to social health indicators, these may include (but are not limited to) the:

- incidence of alcohol related crime in the area. (Data may be reported by local Police, the Australian Institute of Criminology or may be provided by the Office of Crime Prevention); and
- rates of, and trends in, alcohol related hospital presentations/admissions. (Data may be available from country local area health services; the metropolitan health service and the Drug & Alcohol Office).

In addressing social health indicators, applicants should also consider the proximity of the premises to bordering suburbs.

In terms of addressing objects 5(1)(b) and 5(1)(c) of the Act, an applicant may need to consider an area which is much broader than the 'locality' used for consideration of amenity issues.

- **Implementation:** Display signage about responsible drinking, service policies, and available support resources throughout the premises.

#### 4. Promote Safe Drinking Practices:

- **Strategy:** Encourage responsible drinking by providing non-alcoholic alternatives and promoting moderate consumption.
- **Implementation:** Offer a variety of non-alcoholic beverages and highlight these options on the menu to support responsible drinking.

#### 5. Health and Safety Measures:

- **Strategy:** Ensure a safe environment for patrons through rigorous health and safety protocols.
- **Implementation:** Conduct regular safety checks and address any hazards immediately to maintain a clean and safe environment.

#### 6. Emergency Preparedness:

- **Strategy:** Be equipped to handle health emergencies effectively.
- **Implementation:** Ensure first aid kits are available and staff are trained to handle medical emergencies and respond promptly.

#### 7. Controlled Access and Monitoring:

- **Strategy:** Implement measures to monitor and manage patron behaviour effectively.
- **Implementation:** Use surveillance cameras and, if necessary, have security personnel on-site to oversee the early morning service period.

### Part 5 - Impact on Amenity - section 38(4)(b)

*Descriptive report on the impact on the amenity of the locality of the proposed premises to people who reside or work in the vicinity of the proposed licensed premises.*

The key consideration for the licensing authority is the impact of the facilities and services of the proposed premises on the nature and character of the local communities.

When designing licensed premises, consideration should be given to the principles of *Crime Prevention through Environmental Design* (CPTED). Information on CPTED can be obtained from the WA Planning Commission, The WA Office of Crime Prevention, and the Australian Institute of Criminology.

When considering the nature and character of a community, applicants need to address the community's social profile in terms of:

- its identity;
- the quality of life;
- the type of people who live and work in the community;
- the average age, income, and employment status of people living in the community;
- the total population numbers and population projections; and
- whether there are any plans for community change/development (information may be obtained from the Australian Bureau of Statistics (ABS) and the relevant local government authority).

In addition to answering the questions below, applicants will also need to provide:

- a map depicting the locality of the proposed premises; and
- a floor plan which highlights the unique aspects of the proposed facility.

**5.1 What is the nature and character of the local community?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

The local community is diverse, encompassing a range of age groups, cultural backgrounds, and socioeconomic statuses. This diversity is reflected in the variety of community events and services available.

For Extended Trading Permit only

**5.2 How will the proposed premises integrate with the amenity of the locality (both positively and negatively)?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

For Extended Trading Permit only – Club Events only (Restricted to members)

**5.3 What will be the positive recreational, cultural, employment or tourism benefits for the community?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

For Extended Trading Permit only – Club Events only (Restricted to members)

**5.4 What consultation with local government regarding the proposed premises has been taken into account in establishing a business plan?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

For Extended Trading Permit only – Club Events only

**Existing licensed premises within the locality of the premises, including the diversity of the current services.**

**5.5 If you intend to sell packaged liquor, provide the name and address of all existing licensed premises within the locality?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

Not Applicable – Extended Trading Permit

**5.6 If you do not intend to sell packaged liquor, provide the name and address of all existing licensed premises within 500 metres of your premises?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

Not Applicable – Extended Trading Permit

**Positive and negative amenity issues in respect to the locality of the premises/proposed premises**

**5.7 What are the public transport facilities (including taxi services) that would be available to patrons, or any other transport facilities proposed to be provided by the applicant for patrons?**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

**1. Public Transport Facilities:**

- **Bus Services:** The locality is served by several bus routes with stops located within walking distance of the premises. Regular services connect the area with key points such as the town centre, residential areas, and nearby suburbs.

- **Train Services:** The nearest train station is accessible via a short bus ride or a moderate walk. Train services provide connectivity to broader regions, including major cities and neighbouring towns.

## 2. Taxi Services:

- **Local Taxi Providers:** Several local taxi companies operate in the area, offering reliable and accessible transportation options. Taxi stands are situated near popular locations, and booking services are available via phone or mobile apps.
- **Ride-Sharing Services:** Ride-sharing platforms such as Uber and other companies are active in the locality, providing additional flexible transportation options for patrons.

### 5.8 What publicly available parking facilities exist in the locality?

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

**On-Site Parking:** Adequate on-site parking will be provided for patrons, including accessible parking spaces for individuals with disabilities.

**Overflow Parking:** Arrangements for overflow parking in nearby areas or partnerships with local businesses for additional parking spaces are being explored.

### 5.9 What is the contribution of the proposed premises to the streetscape and atmosphere of the area?

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

We are quite hidden, and this should not be of any concern

### 5.10 What is the potential impact of the proposed premises on the level of noise and anti-social activities in the locality, and the management strategies to minimise this impact?

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

The proposed premises will be for **members only**, ensuring that access is limited to a responsible and familiar group. The potential for increased noise or anti-social behaviour is expected to be extremely minimal, if any, and will not impact the surrounding community.

Historically, we have had no issues with members enjoying an occasional drink during events, including early mornings, as part of a calm and respectful atmosphere. This will remain the case, with a few members enjoying beverages like champagne and juice or similar in a controlled and relaxed environment.

To further minimise any impact:

1. **Restricted Access:** The premises will be exclusively for club members, reducing the likelihood of disruption from external visitors.
2. **Limited Alcohol Consumption:** Consumption at these hours will be minimal, ensuring that no excessive or disruptive behaviour occurs.
3. **Proven Record:** On days with larger events (excluding Sundays), we've had no issues with early drinks being served, indicating that members are respectful of the environment and the broader community.

Should we receive approval, we are confident that this will continue to have no impact on the local community.

**5.11 What is the potential impact of the proposed premises on vandalism, litter, criminal acts? (especially violent crimes including domestic violence). This may include improvements in the passive and active security of the area.**

Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

In continuation from the previous response, the proposed premises will be for **members only**, which inherently reduces the risk of vandalism, littering, or criminal activities, including violent crimes such as domestic violence.

The Club has a longstanding history of maintaining a respectful and safe environment for all its members. The potential for any rise in such activities is extremely low, given the exclusive and controlled nature of our membership. Here are the key factors that will ensure safety and security:

1. **Member-Only Access:** Restricting access to club members only means that the premises will continue to be used by individuals who are familiar with the Club's values and standards, significantly reducing the likelihood of criminal acts or anti-social behaviour.
2. **Responsible Culture:** The club fosters a responsible drinking culture, with alcohol consumption being moderate and well-managed. This environment discourages any unruly or violent behaviour that could lead to larger social issues, including domestic violence.
3. **Security Measures:**
  - **Passive Security:** The club's design, including proper lighting and visibility of the premises, enhances natural surveillance, deterring potential vandals or criminals.
  - **Active Security:** We have CCTV monitoring throughout the premises, and staff are always present during opening hours to ensure a safe and secure environment.
4. **Clean Environment:** As a community-focused organisation, we prioritise cleanliness and respect for our surroundings. Members are encouraged to keep the area litter-free, and the club has regular cleaning staff to maintain this.

The controlled access and strong community ties within the Club make it unlikely that the proposed hours would contribute to any increase in crime, vandalism, or litter. In fact, the enhanced security measures in place may even contribute to overall safety in the surrounding area.

### **Part 6 - Offence, annoyance, disturbance or inconvenience – section 38(4)(c)**

When addressing the level of offence, annoyance, disturbance or inconvenience in a community, applicants need to consider the impact that may be caused to people who reside or work in the vicinity of the proposed licensed premises.

Some strategies that could be implemented to ameliorate offence, disturbance or inconvenience include:

- the use of licensed crowd controllers and installation of a CCTV camera system;
- the provision of food;
- liquor to be provided by table service only;
- limitation on the types of liquor and containers available for sale;
- restricted advertising or liquor promotions;
- installation of noise limiters on all amplification equipment;
- types of entertainment being provided;
- furniture and premises layout design;
- lighting in and around the proposed premises;
- noise attenuation of the building; and

- maximum accommodation numbers.

**6.1 Identify the strategies you intend to implement to address potential offence, disturbance or inconvenience to local residents or business operators:**  
 Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)

For Extended Trading Permit only – Club Events only (Restricted to members)

**Part 7 – Community consultation**

**7.1 Are any of the following community buildings or facilities located in the locality of the proposed licensed premises?** (tick all boxes that apply)

**Schools and Educational institutions**  
 YES  NO  If YES, please provide name and address  
 Please provide sufficient information to answer this question by attaching additional information and referencing (by question number)
